## **Pharmaceuticals Industry of Bangladesh**

The **pharmaceutical industry in Bangladesh** is one of the most developed technology sectors within the country. Manufacturers produce insulin, hormones, and cancer drugs. This sector provides 97% of the total medicinal requirement of the local market. The local market size of pharma is expected to surpass US\$ 06 billion by 2025. The industry also exports medicines to global markets, including Europe. Pharmaceutical companies are expanding their business with the aim to expand the export market.

There are 5 types of medicine manufacturing companies in Bangladesh.

1. Allopathic Drug Manufacturers
2. Ayurvedic Drug Manufacturers
3. Unani Drug Manufacturers
4. Herbal Drug Manufacturers
5. Homoeopathic & Biochemic Drug Manufacturers

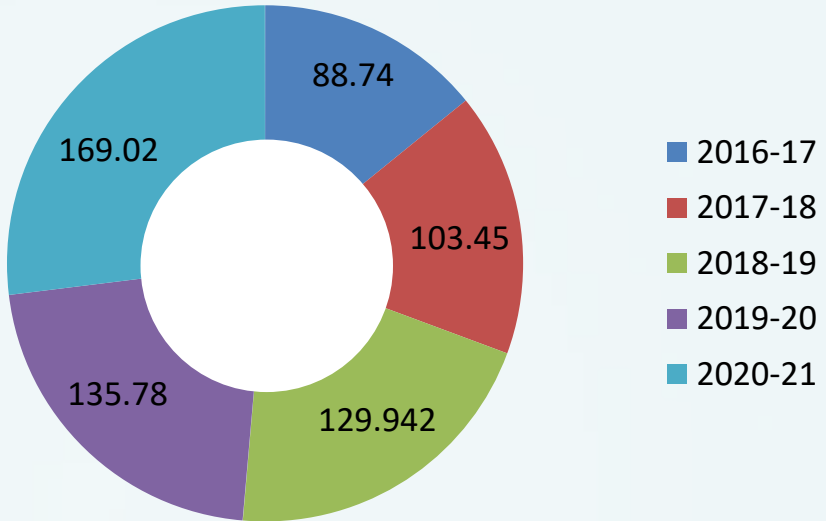

## **Global Footprint**

- Export is growing fast; the current export earning is US\$ 169.02 million
- Bangladesh Government has declared Pharmaceuticals as the “Thrust Sector”
- Approximately 1200 pharmaceutical products received registration for export over the last two years and are being exported to more than 100 countries including USA, UK, Australia and Africa
- Leading companies have increasing focus on regulated markets, including USA and Europe
- Sector has attracted huge attention from clients abroad

## **Bangladesh pharmaceutical Market is characterized by:**

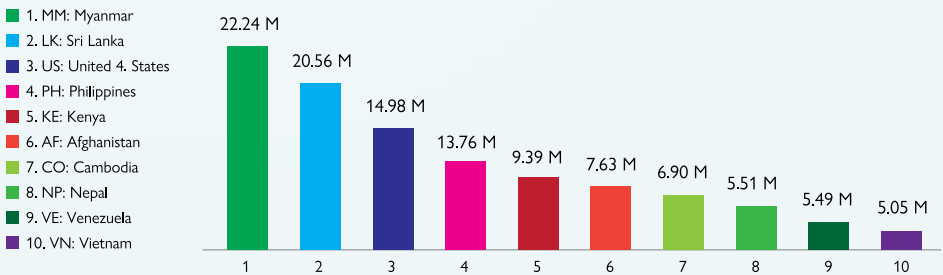

- Emerging generic drug hub in the region.
- Total market size approx. \$2.5 billion (2018)
- Historically good growth maintained (c.>10-15% last few years)
- Leading contributor to national exchequer after readymade garments
- All the top 10 companies are local and they have more than 70% market share
- Leading companies have major regulatory approvals (US FDA, EU GMP, UK MHRA, TGA, GCC, Health Canada, ANVISA, HSA etc.)
